

## CASE STUDY

Our products provide aesthetically pleasing floors with extensive design potential. They have high chemical and scratch resistance and are easy to clean with soaps or detergents. They need little maintenance, mainly routine scrubbing with water and a mop.

This beautiful home in Tanglewood was built by Renaissance Builders. The owner wanted to enhance his 850 sq.ft. garage with polyurea broadcast with chips for a better look and easy of cleaning. The job was done in two days.
